

Tend Health

On-demand in-home physiotherapy, dietitian & mental health care — Ontario-wide

Insurance Partners

Tend Health is partnered with **Telus Health**, so we can submit patient insurance claims directly at the time of service — reducing out-of-pocket costs and paperwork for the patients you refer. We can direct-bill any of the insurers and benefit plan administrators below.

All features, functions, and related benefits are inherent to the Telus Health platform but may not be supported for every profession or plan. We'll always confirm a patient's specific coverage before their visit.

Refer a patient

Call, email, or fax — whichever is easiest for your clinic.
